PROFILE

I am a skilled Kenyan freelancer/student with experience and passion for AI and data processing. Worked in data annotation and microtasks, with proficiency in tools like CVAT and Label studio. Skilled in Swahili and English data labelling to deliver high-accuracy and timely deliverables in AI training projects. Highly committed to supporting global and local clients with quality work.

SKILLS

Semantic segmentation
HTML (intermediate level)
Data labelling and annotation with CVAT
Professional academic writing

EXPERIENCE

Workers High School, Nakuru

2021-2022

Worked as a peer teacher and instructor specializing in Physics and Chemistry.

Remotasks

2021-2022

Performed image and video annotation for AI training datasets, specializing in bounding boxes and semantic segmentation for computer vision models.

Advanced to a higher tier in image segmentation due to consistent quality and efficiency, taking on complex tasks requiring precise pixel-level annotations.

Toloka Yandex

2021-2023

Executed audio classification tasks for AI speech recognition models, labeling 2,500+ audio clips with a focus on Swahili and English datasets.
